

The Business Model Canvas

An immersive career-readiness ecosystem: pathway guidance, interview practice, feedback, and workforce simulation.

Key Partners

- Universities, colleges
- Training centers, bootcamps
- Employers, HR teams
- VR hardware providers
- AI/cloud providers
- K-12 school networks
- Career coaches

Key Activities

- VR platform development
- AI interviewer training
- Voice analysis
- Scoring systems
- User testing
- RIASEC calibration

Key Resources

- VR application
- AI interview engine
- Voice analysis tech
- Question database
- Scoring system
- RIASEC algorithm
- Development team

💎 CENTER OF THE MODEL

Value Propositions

- Realistic VR interview practice
- AI-powered voice-to-voice simulation
- Instant objective performance feedback
- Reduced anxiety through unlimited practice
- Automated institutional reports
- Scalable alternative to manual coaching
- Phase 2 workplace-pressure simulation
- RIASEC early pathway guidance

Relationships

- Self-service access
- Technical support
- Free trials
- Institutional accounts
- Performance reports
- Parent reports

Channels

- Direct institutional sales
- Career services
- Bootcamp partnerships
- Digital campaigns
- Website and app
- K-12 network integration

Customers

- 9th–10th pathfinders
- University students
- Fresh graduates
- Job seekers
- Career changers
- Training centers, bootcamps
- Recruiters, HR teams

📦 Cost Structure

VR development, AI/API usage, cloud hosting, voice processing, testing, marketing, support, automated feedback, and RIASEC reports.

📈 Revenue Streams

University subscriptions, school licenses, individual plans, interview-prep packages, employer screening, parent pathway reports, premium workplace-simulation packages.
